September 2015 – Present

## Related Experience

Release Manager + Developer (co-op): January – April 2017, January – April 2018

*TD Securities, Toronto, Ontario*

- Individually streamlined and automated our deployment processes towards continuous delivery
- Developed scripts and debugged build and regression issues with minimal help
- Identified, resolved, and then documented countless areas of inefficiencies, greatly improving lead time
- Thoroughly understood our team's processes, training a new team member and advising release tasks
- Managed multiple releases with a multitude of teams and tasks in time-sensitive scenarios
- Engaged in the entirety of the release cycle, from debugging and regression to deployment
- Enforced strict policy and safety compliance throughout work steps and documentation

Front-End Developer (co-op, full-time): February – August 2015, May – August 2016

*Clipwire Games, Markham, Ontario*

- Took over and lead the development of one of our test games, later earning 100k+ downloads
- Coordinated the full process of the creation of functional, informative, yet attractive UI
- Streamlined and sped up workflow through effective wireframing and implementation plans
- Carefully wrote intuitive, commented, maintainable code in company formatting standard
- Put the users first, from convenient features, balanced gameplay, creative animations, and bug fixing
- Frequently collaborated with designers, programmers, and our CEO, improving morale

## Recent Achievements

- Key team-member in creating a financial advisory web tool, winning Hack the North's Coinbase API prize
- Top 6 in Hack Western, winning 2 awards for Empowering Diversity and for IBM Watson Vis. Rec. API
- Learned Python, a basic understanding of ML, and created a model to optimize discounts all within a day
- Became my manager's favorite co-op so far with an offer to come back and a referral for full-time
- Expanded our club as Executive Marketing Coordinator for UW Films, creating social media adverts, directing and narrating short event videos, and recruiting at public events. (2015/2016)
